THE CHINESE MAIL 報日字華 (Wah Tsz Yat Po).

THIS paper is now issued every day. The subscription is fixed at Five Dollars per annum delivered in Hongkong, or Eleven Dollars Forty Cents including postage to Coast ports. It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course darived from the native community, amongst whom also are to be found the

guarantors and securities necessary to

place it on a business and legal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, -consider themselves justified in guaranteeing a large and ever-increasing circulation. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of

The field open to a paper of this description—conducted by native efforts, but Societé Francise des Houilleres progressive and anti-obstructive in toneis almost limitless. It on the one hand commands Chinese belief and interest, while on the other it deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials, with Local, Shipping, and Commercial News and Advertisements.

Enbacription orders for the above may be GEO. MURRAY BAIN, China Mail Office.
